INTRODUCTION

In the summer of 2019, ArtsFund conducted a survey of its 120 Cultural Partners. Our annual survey serves to answer some key questions about the network: What is the overall range and scope of the groups that ArtsFund serves? What are their greatest needs and challenges? How can ArtsFund better serve the Cultural Partners Network? We analyze the responses and include aggregate findings in this report for the purpose of deepening our community’s understanding of the shifting cultural landscape in which we operate.

While the Cultural Partners Network changes, these annual surveys allow us to look at how our landscape, challenges, and needs have shifted over time. This overview of our sector empowers ArtsFund to better advocate for issues the arts and cultural community face while also amplifying the powerful work that is constantly happening. Our purpose is to adeptly serve and strengthen the community and these findings help to shape and inform the resources ArtsFund provides for the arts and cultural community.

As we look to the future, these findings help ArtsFund continue to support the arts and cultural sector. We thank everyone who took the time to complete this survey, and to our entire network for your continued investment in and engagement with ArtsFund.

Scope

120 organizations were surveyed via email between July 23 and August 2, 2019. One person per organization was contacted, with the option to designate another staff person at their organization as the survey respondent if they desired. The survey contained seventeen questions, including questions on organizational composition, needs and challenges, and finance. This is the third annual survey of the Cultural Partners Network and will continue to be conducted and updated annually.

Participation

76% of organizations contacted completed the survey. The data presented in the pages to follow is compiled from 91 complete responses.
